STRUCTURE

SIDE PROFILE

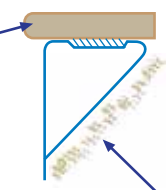

FRONT PROFILE

Fibreglass reinforcing ribs every 300mm - 400mm apart. Ribs are vertically placed around the pool for superior strength

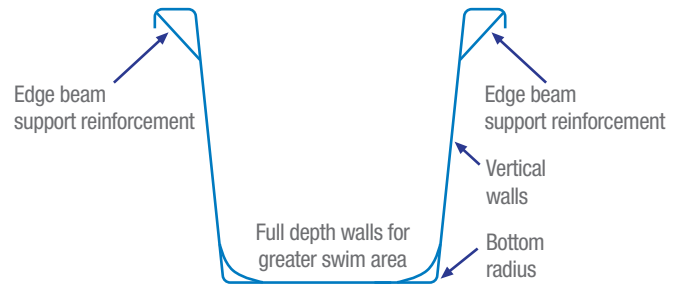

EDGE BEAM

Non slip reinforced fibreglass edge beam, designed to suit pavers. (pavers optional)

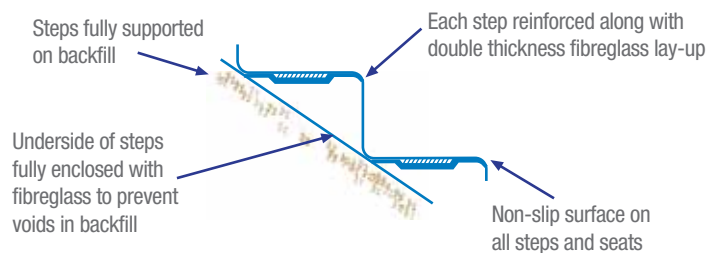

45 degree reinforcement - engineered and designed to support the top area of the edge beam

SIDE PROFILE

STEP REINFORCEMENT

POOL MANUFACTURE LAYERS

1. ISO NPG Swimming Pool Grade Gel Coat, specifically designed & produced for the swimming pool industry. UV & Chemical resistant this product is designed to withstand the test of time.
2. Vinyl Ester Resin Layer which is impervious to water & helps to protect against chemical agents through even the harshest conditions.
3. Structural layers of fibreglass are applied generously to all areas & then carefully hand laminated to the highest standard.
4. Additional layer of fibreglass for extra strength.
5. Reinforced Edge Beam, Seat & Steps to provide additional support.
6. Second and final flowcoat layer, to lock in & seal the reinforcement.

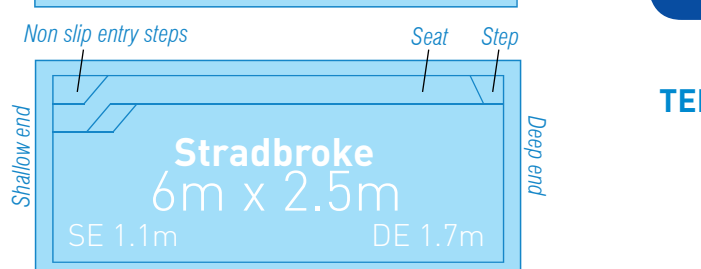

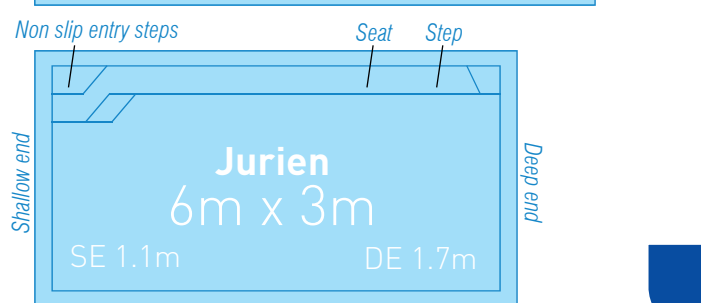

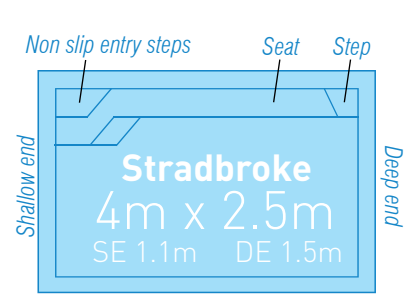

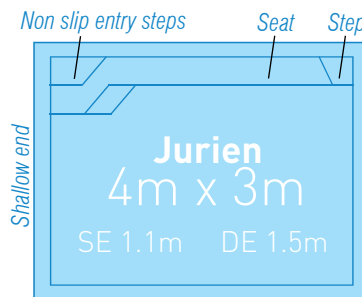

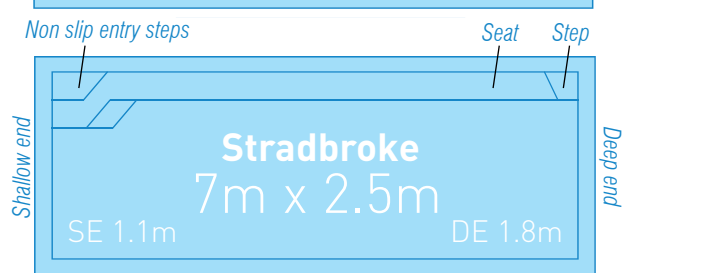

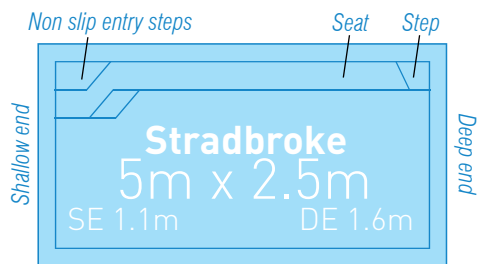

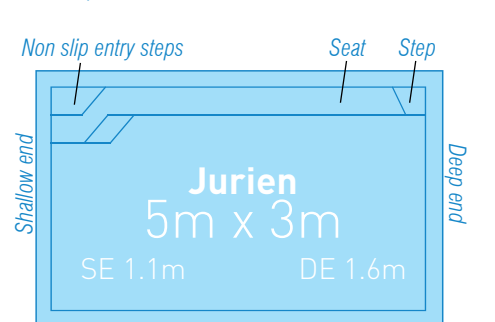

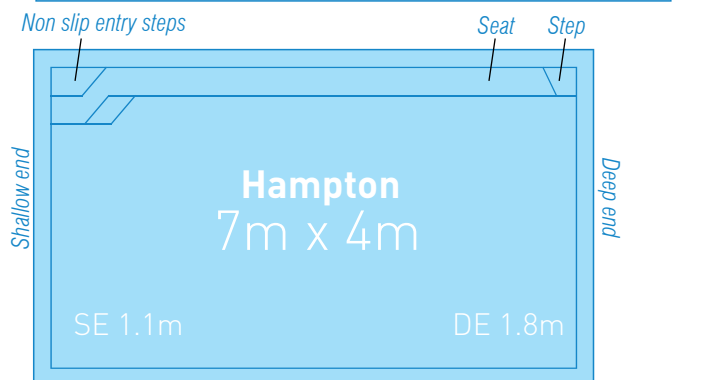

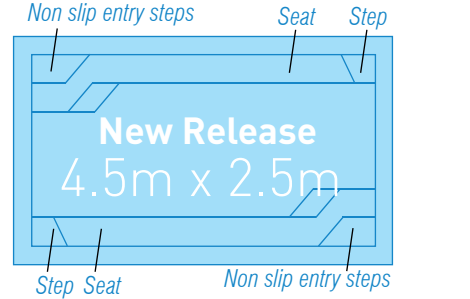

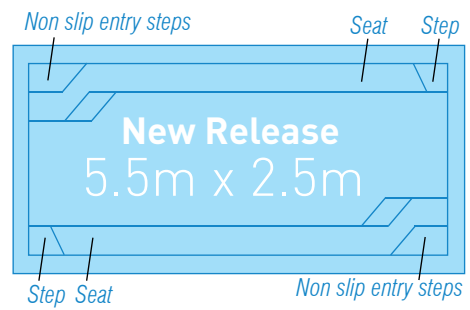

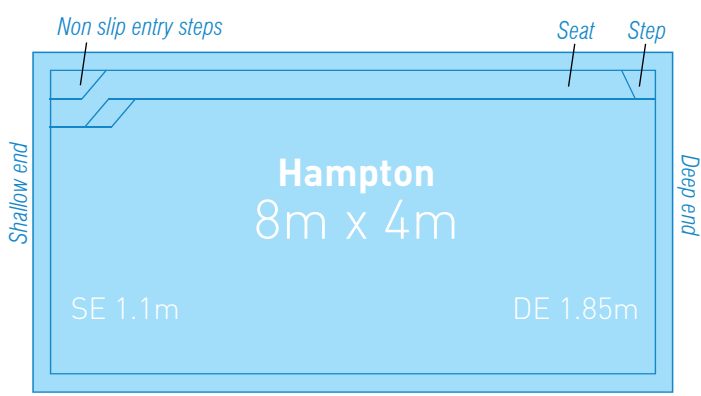

STANDARD INCLUSIONS

- 1. Fibreglass pool shell manufactured to Australian standards AS/NZS 1838. All products used are rigorously tested which allows Factory Pools to offer a Life time structural warranty.*
- 2. Skimmer box to AS 2818 (Customise your Skimmer lid to match paving, optional extra)*
- 3. Standard bob cat to excavate level sandy site including removal of clean fill within a 10 Km radius. (tip fees not included) Standard bob cat requires 2m width and 2m height for access. Ramp in space is required for bob cat & if not possible additional charges for excavator will apply.*
- 4. High performance swimming pool grade gel coat and fibreglass to help protect against UV & pool chemicals.*
- 5. Delivery & installation of pool within 80Km of Perth CBD.*
- 6. 50T Crane allowance (approx 30m reach depending on pool size)*
- 7. Australian made LED pool light including transformer.*
- 8. Electrical connection up to 40m with a double weatherproof GPO wired back to the meter box with separate circuit breaker. (subject to inspection by our licenced electrician)*
- 9. High flow Australian made Cartridge or Sand filter, sized to suit pool without upgrade cost.*
- 10. Heavy duty Australian made self-cleaning salt water chlorination with auto timer.*
- 11. Heavy duty Australian made high flow pool pump to suit pool without upgrade cost.*
- 12. 50mm suction line from skimmer box to pump.*
- 13. Pre-cast concrete slab to suit pool filtration.*
- 14. Mounting post if required to suit controllers & light transformers.*
- 15. Choices of six stunning colours, all gel coats used are ISO NPG swimming pool grade specification offering seven years internal warranty.*
- 16. Pool accessories kit consisting of: manual vacuum head, telescopic handle, leaf scoop, broom and water test kit.*
- 17. Pool clean and equipment demonstration on handover including start up chemicals.*
- 18. SPASA Members with completion guarantee assurance.*
